OBJECTIVE

Motivated Computer Science student with strong foundations in DSA, and Web Development. Seeking opportunities to apply technical skills in real-world projects and gain practical experience.

EDUCATION

ABES Engineering College

B.Tech - Computer Science and Engineering(AIML) - CGPA - 7.9

2022 – 2026

Ghaziabad, India

COURSEWORK

- DSA
- DBMS
- Web Development
- Operating Systems
- Artificial Intelligence
- OOPS Concepts

EXPERIENCE

IBM SkillsBuild Virtual Internship 

September 2025

Web, Mobile Development & Marketing

Online

- Completed a 6-week virtual internship program focused on web front-end development.
- Built responsive and interactive web pages using HTML, CSS, and JavaScript.
- Applied IBM's development guidelines and tools through the IBM Developer Skills Network.

PROJECTS

DSA-Based Music Player  | C++

2024-2025

- Developed a console-based music player using doubly linked lists and stacks to manage playlists efficiently.
- Implemented features including add/delete songs, play songs, track recently played, search, and sort playlist.
- Used file handling to persist playlists between sessions, demonstrating practical application of data structures.

Mental Health Assessment  | HTML, CSS, Javascript

2023-2024

- Designed a user-friendly interface for seamless interaction and accessibility.
- Designed and developed a chatbot to assess mental health by asking users a series of tailored questions and providing feedback based on their responses.

TECHNICAL SKILLS

Programming Languages: C, C++, HTML, CSS, JavaScript

Developer Tools: VS Code, Git, GitHub

Query Languages: SQL

ACHIEVEMENTS

- Solved over 250 problems on LeetCode, demonstrating strong problem-solving and algorithmic thinking.
- Led a 5-member content team in ARDEMA, coordinating technical and creative initiatives successfully.
- Received appreciation for developing responsive and user-friendly web development projects.

EXTRACURRICULAR

ARDEMA : THE AUTOCRAT SOCIETY 

Role : Content Head

- Guided and mentored team members, fostering skill development and encouraging creative input to achieve collective goals..
- Collaborated with event organizers, technical teams, and marketing teams to align content with broader organizational goals.

CERTIFICATIONS

- Data Analytics with Python(NPTEL)
- Problem Solving(Intermediate)
- Programming Essentials in Python
